13th to 15th February 2026

Hotel VIVANTA By TAJ
PANAJIM, GOA

Web. : www.deccanuro.com ♦ Email : deccanuro@gmail.com

Dear Members,

We are pleased to announce the 6th Deccan Course in Paediatric Urology from 13th to 15st February, 2026 at Goa.

Case Based Discussions :

Warm Greetings

The Deccan Case Based Meeting in Paediatric Urology is a marquee event that has been held biennially since 2014.

Our unique format covers all aspects of Paediatric Urology by discussing cases throughout the meeting without any didactic lectures. The cases are presented by delegates and faculty who attend this meeting from all over India and some from the sub-continent. During the case presentations, the faculty are free to interrupt the presenting delegate and engage in a constructive discussion which would help all listeners to learn the thought processes involved in the application of theoretical knowledge to real life scenarios.

The differing approaches of our faculty towards one particular case point is the highlight of the programme. The faculty chosen for every meeting are 5-6 eminent experts in the field of Paediatric Urology and one Paediatric Nephrologist. Our past faculty include Prof. Phillip Ransley (UK), Prof. Tom de Jong (NED), Dr. Karan Parashar (UK), Dr. Jyotsna Kirtane (IND-Mum), Dr. Bharti Kulkarni (IND-Mum), Dr. Shivaji Mane (IND-Mum), Prof. Sudipto Sen (IND-Vellore), Prof. Ramesh Babu (IND-Chen) among others.

We continue to have the patronage of Prof. Minu Bajpai (IND-AIIMS, Delhi), Dr. V. Sripathi (IND-Apollo, Chennai), Dr. Sujit Choudhary (IND-Apollo Delhi) as our faculty for many successive turns.

Also this year, Dr. Ramnath Subramaniam (Leeds, UK) will be joining our star cast as an International Faculty.
